

Product-Asian paints

New marketing strategy for Asian paints.

Now in the add we will show to scenerios-

1. There is a room which is painted with ordinary paint.
2. Another room painted with asian paints.

The room painted with ordinary paint is hot comparative to the one which is painted with asian paints.

Room painted with ordinary paint is more humid whereas the room painted with asian paints is less humid.

Asian paints helps in reducing the room temperature and keep the room cool.

You can impress your guests with asian paints.
